Non sono solo il design e le tecnologie a fare la differenza nei prodotti MYYOUR: anche per quanto riguarda i materiali l'azienda padovana oggi è in grado di esprimere il massimo grazie a un nuovo polietilene speciale denominato Poleasy, messo a punto attraverso un lavoro di ricerca durato anni con l'obiettivo di eliminare quelle microporosità superficiali responsabili della formazione di antiestetiche patine e, nel tempo, anche di possibili fessurazioni.

Poleasy, risolve definitivamente il problema garantendo alle creazioni MYYOUR superfici più compatte e performance davvero uniche in fatto di durata, lavabilità e brillantezza dei colori.

Design and technology are not the only factors that make the difference in MYYOUR products: also because, as far as the materials are concerned, this company, which is based in Padua, Italy, is able to fully express itself thanks to a new and special type of polyethylene called Poleasy.

Poleasy was developed after long years of research. In fact our research was focused on finding a way to eliminate the microporous surfaces that are responsible for the formation of anti-aesthetic patinas or cracks over time.

Poleasy, has entirely solved this problem by ensuring compactness to the surfaces of MYYOUR's creations and a better performance in terms of durability, washability and color brightness.
